Renewal of our Oeko-Tex Certificate

We are pleased to announce that this year we applied for the renewal of OEKO-TEX Standard 100 certificate. As a part of the Vita Group we focus on operating responsibly, constantly looking at how we can limit our impact on the environment. For this purpose, we applied for Oeko-Tex Standard 100 Annex 6 instead of the regular Annex 4.

The Annex 6 has expanded and stricter requirements that aim to bring an improved environmental performance. This new certification could be especially good for companies who are focused on sustainable, eco-friendly vision.

OEKO-TEX certificate support companies in acting responsibly, where sustainable behaviour will be key for businesses to successfully meet the environmental, social and economic challenges of our time.
